

I urge the FCC to reject the NAB's Petition 04-160. I am a classical music fan; and while I support the local Dallas classical station with contributions, XM radio's quality classical selections are excellent. I pay for this service. When XM added instant local traffic and weather, I found that this service was better than any of the local stations including the one that I support. I pay for this service and think that it should be continued. I do not understand why it would not be.
